

◆

From every window throughout the summer, I see flowers blooming—honeysuckle, streptocarpella, double bloomed impatiens, petunias, celosia, catnip, salvia, lythrum, roses, roses, and more roses! This pleasurable experience serves as direction for landscaping with flowers so that blooms are visible from each of your own windows. That way even when you are confined indoors, you are still able to enjoy the beauty of the outdoors from every room. Careful planning now will ensure a marvelous view this season. So take note of what you like and what you don't like, and then make alterations to your landscaping so that you and your family are able to enjoy the garden from inside.
